The Research
Module 4
has some
unexpected
allies for you!

—

GRIP

Wastewater processing platform

How many techniques for
wastewater treatment do you know?
Are you ready to recover metals and
chemicals and reuse the treated
water?

Our researchers are part of an incredible team
with:

- Microorganisms
- Microalgae
- Fungi
- Porous carbons (obtained from RM2 and RM3)

What are they going to obtain?

- Recovered metals
 - Treated water is to be evaluated for reuse according to 2020/741/CE.
- You can discover our results and products through our reports.
