

# Bioeconomy School (3rd edition)

## Science, Economics, Business and Society

Villa del Grumello, Como, Italy  
14-18 April, 2025

The aim of the **Bioeconomy School** is to offer to **PhD students**, **young scholars** and **researchers** from different disciplines an overview of the main scientific topics and of the related advanced competences that are necessary to understand and govern the **Bioeconomy transformation**.

The program offers a set of **multi-disciplinary lectures**, organized in sub-modules, ranging from the introduction to the basic scientific toolbox used in **Biosciences** and **Economics**, to the discussion of more specific case studies related to ongoing research and innovation projects (e.g. NODES, ProPla).

Mastering these aspects is expected to be relevant for **entrepreneurs**, **public institutions** and **researchers** working on these topics. Besides the classes, the instructors will provide mentoring sessions to the participants, with feedback on their research interests and ongoing works.

### Programme

Day 1 - Monday 14/4/2025

- Afternoon: **Module A: Introduction to Biosciences** + **Module B: Introduction to Economics**

Day 2 - Tuesday 15/4/2025
