DNSH NO STRESS!

An online course designed for NODES Partners, useful for collecting documentation for DNSH verification purposes.

HUB NODES is organizing a new online course titled "DNSH No Stress!" which will be held on April 14, 2025, from 11:00 AM to 1:00 PM.

The **webinar** is designed to simplify the process of collecting and verifying DNSH (Do No Significant Harm) documentation, a crucial aspect to ensure compliance with regulations and environmental standards in sustainable innovation projects.

The course is exclusively reserved for the staff of partners who are part of the NODES Innovation Ecosystem - North-West Digital and Sustainable.

"DNSH No Stress!" will provide essential tools, detailed checklists, and operational instructions to handle the documentation effectively, without stress or complications.

During the webinar, participants will have access to:

- Principles of the European Taxonomy, the foundation of the DNSH regulation.
- A clear overview of how to approach the documentation collection process, avoiding frustrations and making the process simple and accurate.
- Practical instructions on how to organize and manage the necessary documents for DNSH verification.

- Guidelines and concrete examples to ensure that activities are fully compliant with environmental standards.
 - Operational checklists to efficiently collect and verify the documentation.
 - Partecipa al webinar di HUB NODES e acquisisci le competenze necessarie per affrontare la raccolta e la verifica della documentazione DNSH in modo pratico e senza stress.
